CHRIS-TEL CONSTRUCTION BREAKS GROUND ON NEWCASTLE AVIATION WORLD HQ FACILITY

Chris-Tel Construction has broken ground on the new world headquarters location for Newcastle Aviation, a global aviation company supporting the commercial airline, regional airline and general aviation industries. The company is moving their headquarters from Burnsville, Minnesota to Southwest Florida due to the tax incentives provided by the County and the State as well as the growing aviation industry in the State of Florida. Newcastle Aviation provides asset management, sales, acquisitions, leases and appraisals on aviation components and parts on a global scale. The 40,000 SF facility will house the executive and general office staff, storage area with rack system, conference rooms, break room and a 10,000 SF area for leasing with room for expansion.

Construction began in June and the ceremonial ground breaking ceremony was held on Tuesday, July 10th at the jobsite on Domestic Avenue in Fort Myers, Florida. The project is designed by Studio A.D. Architects and is slated to be complete by January 2019.

Chris-Tel Construction is a licensed General Contractor and Construction Management firm located in Fort Myers, Florida. They specialize in commercial construction, site/civil construction and special projects. The locally owned and operated firm has been in business since 1989.
